

COMPACT

MURRELEKTRONIK'S MSDD PASS-THROUGHS

HIGH SPEED WITH USB 3.0

DATA TRANSFER AT RECORD SPEED

Fast data import and export from the control in the cabinet is easy with Murrelektronik's USB 3.0 pass-throughs. Diagnostics and service can be conveniently done while the cabinet doors stay closed. This increases safety, which is important during operation. Mounting is simple: the pass-throughs fit into cut-outs with a standard diameter of 22.5 millimeters.

ATTRACTIVE ATTRIBUTES

- SUPER SPEED USB 3.0 Technology
- USB 3.0 is completely backward compatible
- 10 times data rate up to 5 GBit/s
- Full duplex data transfer
- Current capacity up to 900 mA
- Completely pre-wired with cable and connector form A

SELLING FEATURES

- Easy to mount in the Ø 22.5 mm cut-out
- High IP65 protection and NEMA12
- cULus approval

MSDD PASS-THROUGHS ORDERING INFORMATION

Ordering data	Art. No.
MSDD pass-through RJ45 female/female CAT5e	4000-73000-0010000
MSDD pass-through USB 3.0 form A, 0.6 m cable extension	4000-73000-0150000
MSDD pass-through USB 3.0 form A, 1.0 m cable extension	4000-73000-0160000
MSDD pass-through USB 3.0 form A, 1.5 m cable extension	4000-73000-0170000
MSDD pass-through USB 3.0 form A, 2.0 m cable extension	4000-73000-0180000

PRACTICAL

The Solution for Ethernet Networks!

The MSDD pass-through is available in the same design as RJ45 model type female/female.
